

Product Highlights

Wireless AC and Gigabit Ethernet

Stream HD multimedia across your home without interruption using the fastest wired and wireless connectivity options available today

mydlink Cloud-Enabled

Create a personal cloud to effortlessly monitor your network or cameras from any Internet connected PC or mobile device

Easy Set Up and Installation

The QRS (Quick Router Setup) Mobile app for your iOS or Android device allows you to set up your network without touching a computer

DIR-868L

Wireless AC1750 Dual Band Gigabit Cloud Router

Features

Connectivity

- 802.11 a/b/g/n/ac wireless LAN for a complete range of wireless compatibility
- Gigabit WAN and LAN ports for high-speed wired connections
- USB 3.0 port to connect storage drives and printers for sharing
- Multiple internal antennas with Wireless AC technology to optimize your wireless coverage

mydlink Cloud

- Remotely view and manage your network over the Internet
- Access your network through a mobile app

Mobile Apps

- mydlink Lite app helps you access, manage and view your network remotely
- Shareport Mobile app lets you stream and share media files and documents across your network
- QRS Mobile app sets up your network using a mobile device without the need for a computer

Security

- WPA & WPA2 wireless encryption protects the network from intruders
- Wi-Fi Protected Setup (WPS) securely adds devices to your network at the push of a button

The DIR-868L Wireless AC1750 Dual Band Gigabit Cloud Router lets you easily connect, control, and monitor a network using the future of wireless technology, today. It's mydlink Cloud-enabled and supports the Shareport Mobile app to stream and share your media files.

Fast and Reliable Home Networking

The D-Link DIR-868L Wireless AC1750 Dual Band Gigabit Cloud Router creates a blazing fast home network that connects all of your computers and mobile devices to your broadband Internet connection. Concurrent dual-band 802.11ac brings you the future of high-bandwidth wireless connectivity allowing you to stream HD video, make Internet calls, and surf the Internet from every corner of your home without interruption. Gigabit Ethernet ports provide high-speed wired connections for up to four PCs or other devices. It's stylish, easy-to-use, and comes IPv6-ready for a reliable network today and tomorrow.

Use mydlink to Monitor Your Network

The Wireless AC1750 Dual Band Gigabit Cloud Router is mydlink Cloud-enabled, so you can effortlessly access and view your network no matter where you are. See who is connected to your router, change settings, or block someone from using your network connection, all from any Internet connected PC, or an iOS or Android mobile device. Parents can monitor what sites their children are visiting, and can stay informed and in control on the go.

File Sharing Right at Your Fingertips

The SharePort Mobile app allows you to connect a USB storage device to the DIR-868L and instantly share documents, movies, pictures, and music with mobile devices. You can put your music library on a USB drive and share it with your entire home. You can show photos on the living room TV while a family member watches a movie on their mobile device. You can stream media files to multiple devices without interruption, or save them to your device for offline playback. The intuitive interface lets anyone immediately connect to a variety of entertainment options stored securely on your own storage device.

Smooth Streaming with Wireless AC

The DIR-868L uses the latest Wireless AC technology, which can provide transfer rates of up to 1.75Gbps¹ (1300AC + 450N). The router operates on both the 2.4 GHz and 5 GHz wireless bands at the same time using concurrent dual-band technology and six internal antennas. This allows you to browse the web, chat and email using the 2.4 GHz band, while simultaneously streaming digital media, playing online games, or making Internet phone calls on the 5 GHz band.

Designed for Optimal Wireless Coverage

The antennas inside the DIR-868L have been carefully placed to ensure that you will get discover little to no dead space in any environment. The high-powered amplifier will make sure the signal is enhanced by isolating and ignoring noise that can slow data transmissiion. Furthermore, beam-forming technology uses multiple antennas to improve wireless reception by adjusting antenna positions to where they are most needed to achieve the best possible performance.

Easy to Set Up and Use

Get the DIR-868L up and running in no time right from your couch using the QRS (Quick Router Setup) Mobile app on your iOS or Android device. Simply plug in the router, open the app, and follow a few easy steps to get your home network connected without having to touch a computer. You can also set up a secure network with the touch of a button using Wi-Fi Protected Setup. Simply press the WPS button to instantly establish a secure connection to a new device. If you have additional mydlink cloud products, you can take advantage of mydlink Zero Configuration. Simply connect your mydlink-enabled device to the DIR-868L and the router will automatically link it to your mydlink account with no configuration required.

Order Information		
<i>Part Number</i>	<i>Description</i>	
DIR-868L	Wireless AC1750 Dual Band Gigabit Cloud Router	

¹ Maximum wireless signal rate derived from IEEE standard 802.11ac (draft) specifications which are subject to change. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.

² File sharing is for local network use only
