# 46/LTE Mobile Router Connect from ANYWHERE

Whether you're traveling, out to meetings, or just need another mobile connection. This pocket router will get you connected.

#### GLOBAL BROADBAND

4G/LTE broadband connectivity to keep you connected

#### LED DISPLAY

For Battery, SMS and Wi-Fi status as well as Network type

#### LI-ION BATTERY

Improved 3000 mAh Li-ion battery for longer connectivity

### Fast Mobile Internet

Connect to your 3G/4Gmobile connection with fast downlink speeds of up to 150 Mbps and uplink speeds up to 50 Mbps.

### **Secure Connections**

Industry standard WPA/WPA2 wireless encryption keeps your wireless network secure and your traffic safe.

# Multiple Failover Redundancy

The DSL-G2452DG comes with a built-in high-speed VDSL/ADSL modem. It is also equipped with a Gigabit Ethernet WAN port for Fibre connectivity, as well as a USB port which supports a 3G/4G mobile broadband dongle.

# **Multiple Gigabit Ports**

Gigabit Ethernet ports provide high-speed wired connections for up to four PCs or other devices. It's stylish, easy to use, and provides you with a reliable network for today and the future.

- One RJ-11 xDSL Port
- One 10/100/1000 Gigabit WAN port

# Why The Wi-Fi 6?

#### **NEXT-GEN SPEEDS**

The latest Wi-Fi 6 technology for blazing-fast Wi-Fi

#### **128-BIT WIRELESS ENCRYPTION**

The latest in Wi-Fi encryption

#### **OFDMA**

Increased efficiency and lower latency for small data packets

#### **BSS COLOURING**

Colour codes your data to minimize signal interference from your neighbour's Wi-Fi

#### **MU-MIMO**

Data to and from the device at once

#### **TEST INTERNET SPEED**

Built-in Internet test powered by Ookla to check your connection uplink and downlink speeds

#### **MESH WI-FI SYSTEMS**

# Lightning Fast Wi-Fi 6 Throughout Your Home

The DAP-X1860 is a portable plug-in wireless extender that boosts your existing Wi-Fi 6 network and rids your home of pesky Wi-Fi dead zones once and for all. Place it anywhere in your home and experience high speed Wi-Fi 6 on all your connected devices.

# Flexible Mesh Choice for Your Home Network

Pair the DAP-X1860 with a compatible D-Link Wi-Fi Mesh router to create a seamless whole-home network built on industry-standard mesh technology that cleverly shares the same name as your existing network and allows you to enjoy a seamless connection throughout your entire home.

**Dual-Band AX1800**High-speed Wi-Fi 6 for all your browsing, streaming & gaming

**D-Link Wi-Fi Mesh**Works seamlessly with other
D-Link Wi-Fi Mesh devices

**Easy Push-Button Setup**Simply press the WPS button on your Wi-Fi extender

WPA3 Encryption
The latest Wi-Fi security with
WPA3 encryption

# EAGLEPROAL

### One Connection – Infinite Possibilities

We've packed cutting-edge AI features into our advanced series of routers, range extenders and mesh devices to keep everyone connected, no matter what they're doing online.

# **Intelligent One-Touch Setup for Seamless Connections**

- Auto Mesh setup and detects the best channels within the network
- Simple access management with one SSID for both Wi-Fi bands (2.4 and 5 GHz)
- Network self-healing when a weak connection is detected

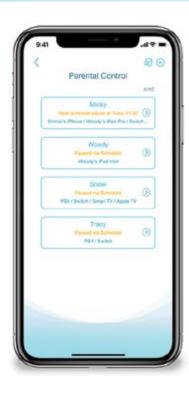

#### **NETWORK PCI CARDS**

#### DGS-F1210 Series

### **Power Over Ethernet**

Long range PoE+ suitable for devices that are far from power outlets or when users want to minimize the clutter of extra cables as power is supplied via the Ethernet cables themselves.

# VLANs: Stronger Security & Better Traffic Management

Relatively easy to set up, VLANs can be a big boon for your network. They can isolate sensitive areas of your network, keeping them safe from those with malicious intent, or keeping bandwidth open for latency-sensitive traffic such as VoIP.

POE+

Power Over Ethernet
Supports both IEEE 802.3at and

**Long Range PoE** 

Maximum distance of 250m for

**Gigabit Ethernet Speeds**Take your Ethernet speeds to the next level with Gigabit

<sup>\*</sup> Long range PoE+ supports a maximum distance of up to 250m in extend mode

<sup>\*\*</sup> With optional redundant Power Supply Supported by DGS-3420-28PC/52P and DGS-1510-52XMP DPS-700; 370W PoE Power Budget

<sup>\*\*\*</sup>Required Accessory: 4x M6220-FAN-F, 2x RG-M6220-AC460E-F

# **Comprehensive Security**

The DGS-3130 Series gives your network the protection it deserves with leading edge security features that handle treats effectively. With built-in IP-MAC-Port Binding, the switches allow administrators to enhance user access control.

#### Slash Your Network Downtime

The DGS-3130 Series gives enterprises and organisations a highly reliable network, allowing for maximum business continuity. It has a built-in G.8032 Ring Protection Switching (ERPR) to help minimize recovery times to 50ms

# Manage Network Traffic in a Whole New Way

The DGS-3130 Series implements a rich set of multilayer QoS/CoS features to prioritize critical network services such as VoIP, video conferences, IPTV, and IP surveillance. With robust features including Traffic Shaping, L2 Multi-cast, Host-based IGMP/MLD Snooping and ISM VLAN, administrators get a whole new way to manage their traffic that fits their needs.

#### **L2/L3 MANAGED SWITCHES**

10 Gbps

**Turbo Mode** 

Activate Turbo mode for optimized performance

#### **Metal Casing**

Rugged aluminum alloy matte gray casing

#### **Power Efficiency**

Designed for low power consumption

#### **QoS Management**

Quality of Service for uninterrupted connections

#### **Multicoloured LED**

Multi-Colored LED light indicates Turbo Mode status

#### **Silent Operation**

Fanless design means it's suitable for noise-free environment

# **Ultra-Fast 10-Gigabit Connection for Home or Office Application**

10-Gigabit port for high-bandwidth network uplink or access to a Network-Attached Storage (NAS) device, it's perfect for the multimedia design workplace or advanced home networking setup.

# Reach Further

The D-Link range of surveillance switches can be further combined with the DPE-302GE PoE Extender to maximize your PoE camera deployment distance to virtually anywhere, drastically lowering the cost for installing any PoE Ethernet devices. It provides you huge time and cost savings and greater flexibility of endpoint device positioning

We recommend customers to test compatibility before actual physical deployment.

# Designed for Surveillance

The D-Link range of Surveillance switches has a total PoE power budget of up to 250W, with up to 30W on each port meaning it's ready to power your PoE-ready cameras and other devices. Simply connect your PoE supported devices and you've got a capable surveillance network with minimal wiring required. Meanwhile, it has an extended PoE range of 250m, reaching devices further than before. Finally, its Gigabit uplink provides ample bandwidth. This ensures smooth transmission of footage when connecting to Network Video Recorder (NVR) or core switch.

**Extended range** up to 250m

**PoE LED Indicators** 

**Gigabit Uplink** 

# Versatility for a Range of Scenarios

The D-Link range of surveillance switches are not just for cameras, they are also able to support other surveillance-related devices. Simply plug in the devices you need to complete your setup; the switch can then automatically detect what has been connected. It then adjusts accordingly to provide optimal performance. Ideal for a power surveillance with minimal management fuss.

EAGLE PRO AI Series — the brains behind the modern smart home network.

# Greater Protection with Main and Guest Wi-Fi Control

- Turn on guest Wi-Fi to prevent visitors from accessing you local network, granting access only to the Internet
- Set data speeds for guess Wi-Fi users
- Log-in credentials and QR codes for guest Wi-Fi access
